W4D3-E02 | WHY A CLEAR APOLOGY IS DIFFICULT TO WRITE | 14 min

Match seven paragraphs to seven of the eight headings. Use each selected heading once; one is extra.

A. A promise needs a practical boundary

B. Not every reader needs every detail

C. The advantages of saying nothing

D. The final test is the reader's next step

E. Naming the event reduces uncertainty

F. Reasons can be mistaken for excuses

G. Warmth comes from attention

H. A message that evades its own purpose

1. The theatre's email began, 'We regret any inconvenience that may have been experienced.' Its audience already knew the cancelled performance had caused inconvenience. The uncertain phrasing made a definite event sound hypothetical. Readers had to work out both what the theatre acknowledged and whether it accepted any responsibility.

2. A clearer opening would identify the cancellation and its effect: 'We are sorry that Friday's performance was cancelled after you arrived.' This statement does not explain everything, but it establishes shared facts. Readers can then judge the explanation that follows without first decoding an abstract reference to inconvenience.

3. An explanation about a technical fault may be necessary, particularly if customers wonder whether the next performance is safe. Placing it before the apology, however, can suggest that the organisation is defending itself. The same information can produce a different impression when its position in the message changes.

4. 'We will make this right' sounds reassuring but tells a customer little. Stating when a refund will arrive is more useful. If the date is uncertain, the message should explain when an update will be sent. Precision is possible even when the final outcome is not yet known.

5. The engineer's full account belongs in an internal report. A customer mainly needs to know what happened, what action is required and what the theatre will do next. Removing technical detail is appropriate when it improves relevance; concealing a material fact would be a very different editorial choice.

6. Some writers try to make an apology friendly by adding cheerful punctuation. A more convincing approach is to recognise a specific consequence, such as a wasted journey. That observation shows the reader's situation has been considered. Tone depends on the substance of the message as much as on its vocabulary.

7. Before sending the revised email, the writer should ask what a customer can now do. If a refund requires a form, include the route to it. If no action is needed, say so. An apology becomes effective communication when it reduces the uncertainty created by the original failure.

W4D4-E04 | EDIT FOR FULFILMENT, WORD COUNT AND NATURALNESS | 20 min

Attempt each repair before consulting the Answer Book. Suggested answers are not the only valid wording.

W4D4-E04-Q01 | 40-50 words

Shorten this informal email to 40-50 words. Keep the reaction and a shared next step: "Hi Mel, I have just read the new booking policy which the sports centre sent to all the members today. I think it is understandable because empty places are frustrating, but I am worried that people might forget to cancel when they are busy. Perhaps we could put reminders on our phones before every class so that we remember our bookings. Tell me whether you think that would be a good idea. See you soon, Jo."

W4D4-E04-Q02
